# Dedication

WILLIAM HENRY HARRIS, A.B., M.D.  
Chairman of the Department of Medicine

Dr. Harris came to Waman's Medical College in 1960 and was appointed Professor of Medicine and Chairman of the Department of Internal Medicine. His outstanding reputation in the fields of clinical medicine, medical education, and research had preceded him. Dr. Harris is an alumnus of Harvard Medical School, from which he was graduated cum laude. He did postgraduate work on the Harvard Service at Boston City Hospital and at Bellevue Hospital in New York City. He served as Associate Professor of Medicine and Head of the Pulmonary Disease Division of the University of Utah College of Medicine and as Chief of Pulmonary Disease Service of the Veterans' Administration Hospitals in Salt Lake City. He is certified by the American Board of Internal Medicine with a Subspeciality in Pulmonary Disease. At present, Dr. Harris is President of The American Thoracic Society.

We are grateful to Dr. Horris for his devotion to our learning, and for his efforts in helping us achieve our cherished goal. We are grateful for the many hours of counselling, and for his helpful advice on our individual careers.

Men, we have a problem . . .

Firstly, we must consider . . .

Most of all, we thank him for sharing with us, his students, the intense enthusiasm which has motivated his medical career — the enthusiasm for fuller, newer, medical knowledge and its application.

It is with pride that we dedicate this volume to an unforgettable professor and an outstanding physician.

Well, now that's settled .

# To the Seniors . . .

MARION FAY, B.A., M.A., PH.D.  
President and Dean

For four years the members of the Class of 1963 have studied and worked and learned the fundamentals of Medicine. When you receive the M.D. degree in June you will be ready to assume the responsibilities of the internship and to begin the long training in clinical medicine which makes your profession such a continuing challenge.

We will welcome your visits and your letters to tell us of your successes.

Marion Fay  
President and Dean

IRENE E. MAHER, M.D.  
Associate Dean

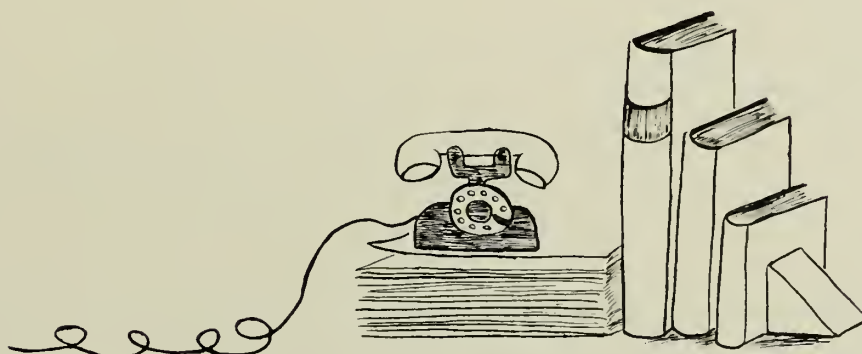

DOROTHY L. PEUSER, M.S.  
Administrative Assistant

DORIS G. BARTUSKA, M.D.  
Assistant Dean

## Administration

ROBERT L. LAMBERT, M.D.  
Medical Director

GLADYS DOW DASKAM, B.A.  
Assistant to the President

## Class Advisor

**KATHARINE R. BOUCOT**  
M.D., M.P.H., F.A.C.P., F.A.C.C.P.  
Professor of Preventive Medicine  
Clinical Professor of Medicine

### THE DEDICATED HEART

George Santayana said, "The great question is not what age you live in or what art you pursue but what perfection you can achieve in that art under those circumstances." The Class of 1963 goes into the world of medicine with considerable knowledge and many techniques. You will blend these over the years with understanding and tenderness into the art of medicine, which is true healing. Today, world crisis brings the possibility of destruction close; how deeply grateful you should feel that you have chosen to restore, to soothe, to minister. You have the inner strength of the dedicated heart. I know this because you have been very close to me.

I wish you Godspeed with pride and satisfaction in an exceptionally fine group of young women. Wherever you go, our support and trust will be with you. Remember that you may always return for guidance, assistance, or appreciation.

With esteem and affection

Katharine R. Boucot, M.D.

## The Class of 1963

PATRICIA LOUISE ADKINS

10009 Beaconsfield Road  
Detroit 24, Michigan

Wayne State University, B.S.

## Edinger Westphal III

Once upon a time, in the Kingdom of the Mind there dwelt, on the Isle of Reil, a young prince, Edinger Westphal III, who lived in the Glabus Paladus with his mother, the Queen Dura Mater. Every morning when the Caccyx crawled at dawn, Edinger Westphal III left his royal chambers and sounding the superior temporal horn, awakened the Kingdom.

This was a very special day in the life of Edinger Westphal III, for today was his birthday. It was a lovely morning and Edinger Westphal III strolled out upon the Brachium Pantus and gazed into the Aqueduct of Sylvius. Edinger Westphal III was in love. Her name Ann Eurysm, and Ruber, among his cartices, had it that she was unfaithful. Was she a true Ann Eurysm or a false Ann Eurysm? This was his neuralemma. He was interrupted by the barking of Raphke's paach, who came bound — across the bridge to greet him. It was time for him to go to school and Raphke's paach always accompanied him. Today he had to recite the "All-ar-nane" law and learn the perivascular satellites and in chemistry he had to distill on his Galgi apparatus. Sometimes after school the Dura Mater picked him up, but he was never sure whether she would, because she was the vaguest person. Today she was right on time, and he could see by her smile that she had been to the Dentate. Hurrying back along the Optic Tract they gazed proudly at the royal flaccus on the axon hillocks. When they arrived at the Glabus Paladus they found it ablaze with astracytes.

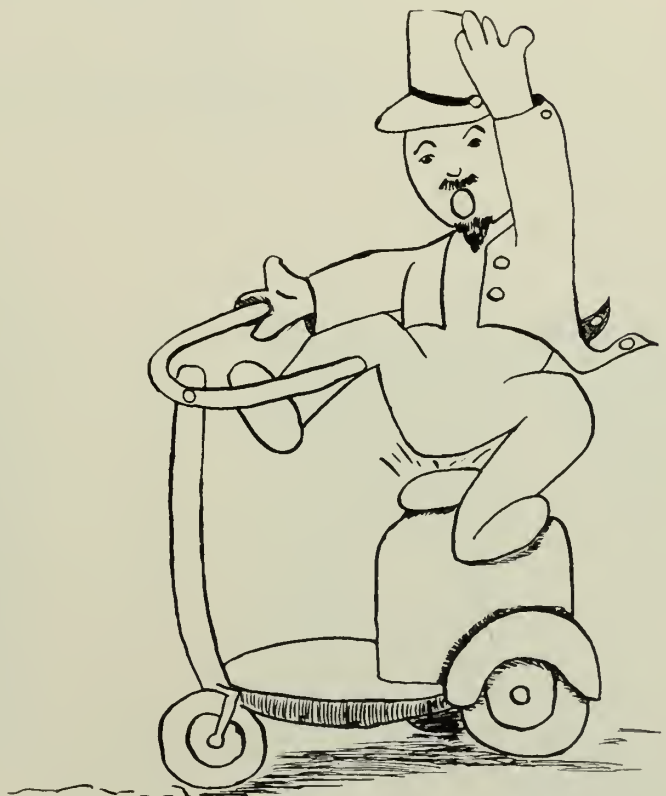

All of Edinger Westphal III's ansa's and uncuses had arrived, and the Circle of Willis was jommed with their auta-gyri. It was nat until he stepped into the Polodus and oll the guests started to cingula "Happy Birthday," that he reolized that this was a party in his honar. Everyane remarked upan the beautiful mylin sheoth that the Dura Moter was wearing. His uncus, the Lusko, wha was in o vitreous humar because he hod been in an oqueaus humar the night before, was suddenly seized with mircaglia and before they could stap him, he hod jumped an the oculo-motar scooter that Edinger Westphol III's Ansa Lenticularis had given him, and rode around the roam shouting, "This is na hemibalismus. This is a real blastama!" After hitting the tabes darsalis he drave through the darsum, down the rayal treppe and splash! right into the pons, which sa disturbed the Schwonns, that they arase in a great flacculus.

But in the midst af the merriment Edinger Westphal III was sad. He saw Ann Giamo ond Sylvian Fissure, but where was Ann Eurysm? Suddenly Aphasio rushed from aphanio boath and cried, "Ann Eurysm had ruptured!"

The next doy the giant organ af Carti pealed farth the Massa Intermedia. And sa they came to berry Ann Eurysm.

Medical Service Association of Pennsylvania

# This is a capsule...

---

● ● ● and it looks deceptively simple. Certainly not as complex as an x-ray machine, a fully equipped operating room, or a modern pharmaceutical analysis laboratory. But appearances can be deceiving. Into this capsule went countless hours of research, the clinical investigation of thousands of patients by scores of physicians and—finally—painstaking manufacturing controls. And—with the help of this capsule—physicians are able to provide more effective care for their patients.

Smith Kline & French Laboratories is dedicated to the discovery and manufacture of these seemingly simple medicines . . . prescription drugs which have revolutionized the physician's treatment of his patients.

## COMPETITIVE SCHOLARSHIP AWARDS

Your Alumnae Association proudly salutes these eleven winners since 1952 of the Competitive Scholarship given by The Woman's Medical College of Pennsylvania.

This Award, which carries full tuition for four years, is made by the College to a student in the entering class. It is based on her college record, which should be of outstanding excellence, her personality, character and potential as a physician. Other considerations in the selection of an applicant are the results of her Medical College Admission Test and her Graduate Record Examination.

A satisfactory academic record must be maintained by her in order to retain the Scholarship for four years.

<b>1962</b>	<b>Gail Hodgdon</b>
<b>1961</b>	<b>Kathleen Heidelberger Carole West</b>
